Time-of-Use: The plan for California

Time-of-Use rate plans are an easy way for Californians to continue our clean energy leadership while ensuring a more responsible and sustainable energy future for generations to come.

Time-of-Use rate plans offer:

- Lower-priced power when demand is less
- Greater use of renewable energy
- A path to a better and healthier energy future for California

About Transition to Time-of-Use

Starting in 2020 and lasting through early 2022, many PG&E residential customers will automatically transition to the **Time-of-Use (Peak Pricing 4-9 p.m. Every Day)** rate plan, *risk-free* with Bill Protection for the first year. Customers eligible to automatically transition will be notified 90 days in advance and reminded 30 days before the transition.
